10/31/72 Thanks for clips, Howard. Sup. Ct's refusal take Nichols case blessing for it is worst possible FPI to go there, as Lesar agrees. His preference my spectro of those pending. I agree, which does not change court character, predisposition. I'm prepare to ask Bud to ask Powel, Rehnquist at least to withdraw... Flo Kennedy: she won't stop and she is not reluctant to get herself arrested... Mrs. Garrison suing for separation: only surprise it didn't happen soon, and not alone from his taunting of chronic infidentilies. She seems to be a fine woman from what I've seen of her, stoo by him through much, and was but abused for it. He surely is all apart by now, alas...busy on Ray habeas corpus still. Best, HW
